3. ☐ Upon the filing an appeal, the proposed amendment ☐ will be entered ☒ will not be entered and the status of the claims will be as follows:

Claims allowed: None

Claims objected to: None

Claims rejected: 27-39,

However;

☒ Applicant's response has overcome the following rejection(s): 112, 2nd rejection

4. ☒ The affidavit, exhibit or request for reconsideration has been considered but does not overcome the rejection because the amendment and remarks fail to address the enablement with respect to the breadth of peptide, peptidomimetic. Applicant argues that methods are provided for screening these compounds against
5. ☐ The affidavit or exhibit will not be considered because applicant has not shown good and sufficient reasons why it was not earlier presented.

☐ The proposed drawing correction ☐ has ☐ has not been approved by the examiner.

☐ Other

However, specification still does not provide guidance as to the nature of the peptide or peptidomimetic that can be selected, since peptide & peptidomimetic represent a fairly large number of molecules and one of 8 kill on the act would be forced into undue experimentation.
